About Me (Summary)

- **I'm a backend developer who strives to do my job as best as possible, always trying to learn and repeat what I already know for the best results.**
 - An experienced backend developer with one year of experience creating modern and responsive web interfaces. Proficient in React, JavaScript (ES6+), HTML5, CSS3 (Sass/Less), Next.js, Typescript, SQL, and Docker. I'm proficient with REST APIs and Git. I'm looking for an opportunity to apply my skills in developing complex user interfaces and contribute to the company's growth.
